REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Arden Elementary School has made continuous progress in all areas during the 2012-2013 school year. Common Assessments, Measures of Academic Progress (MAP), SuccessMaker and the Palmetto Assessment of State Standards (PASS) provide ongoing data to measure instructional effectiveness and student success. The teachers worked diligently with the reading coach to implement the Professional Learning Community model (PLC). This was accomplished through collaborative sessions focusing on student learning, as teachers established team and individualized goals. Rigor and Relevance strategies, hands-on materials and resources, the continued use of technology, and small groups for differentiated instruction were incorporated in the teaching and learning process.

Several initiatives were implemented to increase literacy, mathematics and science skills. Outside mathematics and reading consultants were hired to provide professional development to demonstrate and model ways to enhance students' problem-solving skills and reading skills. A parttime K-2 reading interventionist provided support to the established reading culture of the school. Students received additional help through Leveled Literacy Intervention (LLI) to accommodate reading deficiencies of identified students based on Dominie, common assessments and/or SuccessMaker reports. The media specialist continued to work closely with the reading coach and teachers of reading to solicit information in reference to the books of interest to our male students to entice them to read more frequently. The media specialist also encouraged teachers to be mentors/coaches to motivate students to reach their Accelerated Reading (AR) goals each marking period.

Students were encouraged to be a part of the "Early Bird" program by working in the computer lab several weeks prior to statewide testing to increase their reading and mathematics scores. The Response to Intervention plan (Rtl) was implemented at the beginning of the school year to support student learning deficiencies at each grade level. In an effort to increase reading, mathematics and science scores, teachers conducted peer observations at neighboring schools with populations similar to ours in an effort to obtain additional insight on instructional strategies in those areas. The guidance counselor implemented the "Homework Heroes" program to encourage students to complete and turn in all assignments in a timely manner. The National Partnership of Schools Committee sponsored Family Nights for each grade level in support of mathematics and reading instruction and to encourage parental involvement.

A goal to obtain an overall rating of 'Average" on the school's report card was achieved. A major goal for the 2013-2014 school year is to continue our efforts to provide the support students need to experience academic success. Additional goals are to score an overall rating of "Good" on the upcoming report card and to continue to make Adequate Yearly Progress (AYP) based on students' performance in the core areas of reading and mathematics.
